

Agriculture Education

Horticulture

Course Syllabus

Preliminary Requirements:

Students must be an FFA member and must carry out a Supervised Agricultural Experience (SAE) from at least one of these areas: Entrepreneurship, Placement, Research or Exploratory.

Prerequisites:

Introduction to Agri-science is required.

Course Outline:

“This introductory course has a horticultural emphasis. Content includes species and importance of horticultural plants, ornamental horticulture (including floristry, landscaping, turf, and greenhouse production), disease and pest management, plant nutrition, and growth regulation.”

Okcareertech.org/aged

Course Overview:

Introduction to Horticulture will introduce students to all areas of plant and soil science. This course will be helpful in meeting the career goals of any student, not just those who pursue a career in agriculture. Technology will be utilized in this course as well as hands on learning material. Students are required to be members of the FFA as well as participate in Career Development Events, and other educational programs outside of the classroom.
